

**DWN-520 Double Loop Wire Punching And Binding Machine**

**Advantages:**

1. Combines auto Punching and Binding in one machine to save labour to improve production efficiency
2. Through replacing punching and binding mould to compete different produce for punching and binding
3. Could be used in integrity and also for punching and binding in separation to handle different produce request
4. Could be used in integrity and also for punching and binding in separation to handle different clients request
5. Makes the operation easier by auto convey the booklet

**Technical Data:**

Machine model:	DWN-520
Working Speed:	800-1800 books/hour
Punching Thickness for one time:	1-6mm
Max Punching Thickness:	12mm
Max punching times for one book:	5times
Max book size:	510mm*800mm
Min book size:	100mm*140mm
Max size of conveyor belt:	420mm*420mm
Binding Specification:	1/4" 5/16" 3/8" 7/16" 1/2" 9/16" 5/8"
Pitch :	3:1 and 2:1
Size of book for binding:	100-520mm
Air compressor(customer provided by themselves):	3kw
Air Pressure :	7-8 Bar
Power:	220v/50HZ/60HZ/1Ph/4.5KW
Machine Weight :	1500KG
Machine Size:	4780*1600*1600mm
